# CAPRERA

OPENLUCHTTHEATER — WANDELPARK

## RIGGING

Truss construction: 12 meters wide, 8,5 meters deep. Maximum load of 1500 kg distributed over the entire truss.

Please note that the truss at the rear has bevelled corners! Clearance  $\pm$  5m. Truss is adjustable in height by 5 x 1-ton hoists. Please see [Rigging grid](#).

## GENERAL NOTES

We are an open-air theatre however the stage and FOH are completely covered.

IMPORTANT: It is forbidden to use confetti or other similar products in our theatre. Pyrotechnics are generally not allowed. If you have any question please contact us in advance.

There is no piano (grand nor upright) present in this theatre! Renting a piano is possible (at artist/production own costs), our preferred partner is: [www.kootpiano.nl](http://www.kootpiano.nl).

**Please note that the use of the above-mentioned material are included in the venue price (as mentioned in the contract). We are able to rent extra material if necessary. All extra costs will be charged to the artist/production.**

The final light plot for the 2023 season will be available in early May 2023.
