

## Venue rider 2023

**Between the dunes and the forest in Bloemendaal lies the beautiful open-air theater Caprera. From early May until late September, we are open for a summer full of cabaret, pop, classical music, opera, theater and children's shows.**

### **Capacity**

We assume that we can open our theater with full capacity, which means 1100 people seated or 1300 mixed places.

### **Address**

Hoge Duin en Daalseweg 2, 2061 AG, Bloemendaal  
The audience and Load-in/out use the same entrance.

### **Load-in/out and parking**

Load- and out take place in our own parking lot. There is a tunnel between the parking area and the backstage/stage. The tunnel clearance height is 2,80m (9 feet). With a small car you are able to drive through the tunnel and load-in/out next to the stage. Note: Please do not drive your car on the stage.

In our parking there is space for one large truck and, on average, 5 to 6 cars. The production manager will show you where you can park. Please let us know in advance with how many cars you will be travelling.

Overnight parking is possible upon request (in advance). On Sundays our parking is used for children's theater programs, therefore not available for cars. All vehicles can be parked just outside the theater, free of charge.

### **Website**

<http://www.caprera.nu>

### **Wifi-Network**

Upon arrival we will give you the current password to our WIFI network

### **Sound Check**

The venue is located in a residential district; therefore soundcheck with PA is restricted to 1 hour. Please discuss, in advance, with the production manager the time of the soundcheck.

### **Rehearsal**

Due to agreements with the neighbors and the city council, amplified rehearsals are unfortunately not allowed on stage.

# CAPRERA

OPENLUCHTTHEATER — WANDELPARK

## **Sound restriction**

By the city of Bloemendaal we must operate under a strict sound restriction. The maximum sound level is 85dB(A) at the FOH. We measure and reinforce this restriction during every production. Unfortunately, no exceptions are allowed.

## **Please note**

Caprera loves the surrounding nature and we continuously work on being as green as possible. Therefore, it is not allowed to:

- Use any kind of confetti, streamers, snow or to blow bubbles (or similar items/activities)
- Use pyro effects or CO2 jets (or similar activities) without prior consent
- Use laser beams without prior consent

## **Technical specs\***

<https://caprera.nu/organisatie/techniek/>

All technical equipment available on site are listed in our tech specs sheet. This is the standard set for this season. Should you need extra equipment, please contact our production managers. Extra costs will be charged to the artist.

## **Backline**

There is no backline available on site.

## **Caprera Crew\***

Caprera will provide a sound engineer and a light engineer and a production manager for every production. If you need additional local crew, please discuss this in advance with the production manager.

## **Time schedule\***

Our production manager will send you a time schedule proposal for the day of your show. Please check carefully if it will work for you and confirm the times per e-mail. Get-in is normally 6 hours prior to show time. Early get-in is possible for a fee (extra crew hours). Doors open to the audience 1,5 hour prior to show time.

## **Catering and after show\***

Our catering serve freshly made food. Please let us know 10 days prior to show day if you require catering and 3 days prior to show day if there are any special dietary needs (vegetarian, vegan or other special diets). Catering is available for groups larger than 7 pax. For smaller groups we can order meals from one of the local restaurants.

We can organize a nice aftershow drink. We would like to receive an indication of how many people will be present. This with regard to purchasing.

## **Lunch\***

Should you require lunch please inform the production manager for further arrangements.

# CAPRERA

OPENLUCHTTHEATER — WANDELPARK

## **Hospitality rider\***

We will gladly purchase the items mentioned in your hospitality rider for you. Please note that we do not make use of, or purchase, small water plastic bottles (disposable plastic). We will make refillable water bottles available to you, for use during the production.

## **Dressing rooms**

We have a large dressing room with toilet and a soloist room with shower and toilet. The caterer cooks in our kitchen, adjacent to a general dressing room. In addition, we have a covered terrace available, which can be used.

## **Guest list**

The guest list is limited to 20 guests per show.

## **Merchandise**

For this season we still need to determine where the merchandise stand will be placed. Further information will follow.

## **Photographer**

We have a house photographer who is present during the show. Should that be an issue please let us know. Photos can be made available for artists' use.

## **Drones**

It is forbidden to fly drones above Caprera.

## **\*Extra charges**

All extra charges will be worked in the final production invoice. This includes:

Technical specs:	Additional required items (rental costs).
Early get-in:	If earlier than 6 hours prior to show time.
Caprera crew:	Stagehands costs will be communicated to the tourmanager.
Lunch & Dinner:	Dinner prepared by our catering costs €20 per person excluding drinks (on consumption). For smaller groups dinner can be ordered from a local restaurant. Costs will be calculated and charged to the production. Lunch costs will also be calculated and charged to the production.
After drinks:	€7,50 for snacks and drink will be calculated based on consumption.
Hospitality rider:	The actual costs for the hospitality rider and 5 % service charge. Not returning the refillable bottles (€10,00 per bottle).

**Should you have any questions please contact our production managers:**
